Dear Mr. Riches;

**RE: Reilly's Security**

I have been asked by Nick Migliore of Reilly's Security to provide a reference based on their service to the University of Toronto.

The University entered into a contract with Reilly's approximately one year ago after having had contracts with two other companies. Reilly's made commitments to the University to change the manner in which security is provided in two very difficult student residential situations. Residents and faculty had developed dissatisfaction with previous suppliers. Therefore, keeping their commitments was a very important test of their ability to service the contract. After a difficult start based on the legacy of the previous suppliers, our situation has completely reversed. There is wide satisfaction with the staff and services that Reilly's supplies.

Should you need further information, please do not hesitate to contact me at 416-978-7472.

Yours truly,

Dan Hutt  
Manager,  
Police Services
