

# Reilly Lock has key to success

SINCE 1932, the name Ontarians trust when it comes to security products is Reilly Lock.

As the most established security professionals in the Greater Toronto Area, Reilly Lock™ is renowned for carrying a complete line of the most advanced security products on the market. Their two retail locations in Toronto employ friendly and knowledgeable staff that will assist you in best suiting their products to your needs.

The company's wide range of products, full-service philosophy and commitment to excellence has firmly established them as the leader in their industry. That potent combination has also landed the company the Consumers' Choice Award for Best Locksmith.

"Being the original locksmith in Toronto, there's a lot of name recognition for the generations of people who, when they think locksmiths, they think Reilly," says Carmine Panaro, president.

Panaro oversees the Reilly Group of Companies, which encompasses Reilly's Locksmiths, Reilly's Security Services, Reilly's Security Systems and Reilly Lock in Barrie, Ontario.

The Reilly Lock division carries safes, high-security locks, panic hardware, security grills, exit hardware, decorative hardware, security guard services and more.

Panaro says where the company excels is in the breadth and superiority of its product lines, and its ability to create customized security solutions for each client.

"We get involved in understanding what our clients need," Panaro says. "We're not just selling one box that every customer has to buy. We're selling a variety of products that will suit their requirements."

The company's cutting-edge product lines are matched by a stellar track record when it comes to customer service, Panaro says.

Reilly's team of industry professionals is committed to providing exceptional service for all your residential, industrial, commercial and corporate needs. The on-site installation team connects everything from locks to surveillance equipment, and services existing products, as well.

"We offer 24-hour service. Other companies may advertise that, but they might not show up for a call 'til the fol-

lowing day," Panaro says. "Our service means if a call comes in in the evening, we arrive in the evening."

That promise has earned Reilly Lock a loyal clientele base made up of about 5,000 residential and corporate clients such as Bell Canada Security, CN Tower, Environment Canada, Cadbury, Toronto Police, Fairmont Royal York Hotel, Toronto's Union Station, University of Toronto and the 407 ETR Highway.

In keeping up with growing demand, the company now has 150 employees, and in addition to meeting local demand, facilitates services for clients across Canada, the U.S. and the U.K. through its vast network of locksmith associates.

As a full-service, completely integrated security company, Reilly's carries a comprehensive line of alarms. They stock everything from dependable residential alarms to intricate systems for your business. Reilly Lock will furnish and install all alarms and provide security evaluations at no charge.
